July 30, 2001

Paul Scagnelli
Schiavonne Construction Co/August C. Lozano - Joint Venture
1600 Paterson Plank Rd
Secaucus, NJ 07096

The jury for the 2001 NSBA Prize Bridge competition met in Minneapolis July 23rd and 24th and selected this year's winners. It is with great pleasure that I advise you that the jury selected the entry, Ninth Street Bridge, as a Prize Bridge Award in the Movable Span category. The submitter of this entry, William Nyman from Hardesty & Hanover, LLP, listed you as the contact for the General Contractor firm. The 2001 jury included:

- Mr. William Crawford, P.E., Chief Bridge Engineer, Nevada DOT
Mr. William Dowd, P.E., Executive Vice President, HDR Engineering, Inc.
Mr. Niels J. Gimsing, Professor, Technical University of Denmark
Mr. Malcolm Kerley, P.E., State Structure and Bridge Engineer, Virginia DOT
Dr. Dennis Mertz, Associate Professor, University of Delaware

We will honor the Designers of the entries that receive a Prize Bridge or Special Project Award at an Awards Dinner on October 4th, during the 2001 World Steel Bridge Symposium in Chicago, Illinois. We will also honor the Owners of these entries at an Awards Dinner during the 2002 AASHTO Bridge Subcommittee meeting in Atlantic City, New Jersey. The other participants for these entries, and all participants for entries that receive a Merit Award, will receive plaques presented by our Regional Directors at upcoming public local events. In addition, Modern Steel Construction magazine will devote its October issue to the awards.

We are in the process of ordering the award plaques. According to our records, we will list your firm name and description on the award plaque as follows:

Schiavonne Construction Co/August C. Lozano - Joint Venture
General Contractor

Please review this information and contact me immediately if you need any corrections. The deadline for corrections will be August 17, 2001. You can contact me by fax at (630) 262-3888 or email moffitt@aiscmail.com.

Once again, congratulations on your award winning entry

Sincerely,

Michael G. Moffitt
Director, Engineering Services
